Forecast for Friday 07 Aug 2020

Weather: Some brightness in the morning, especially around Deeside. Outbreaks of rain will spread east later in the afternoon, some of this heavy and perhaps with an isolated thunderstorm. Drying up from the west in the evening.

Chance of cloud free mountain/hill tops above 800m: 50%. Low cloud between 500 and 700 metres across the southwest of the region for most of the day, this becoming more extensive in the afternoon although hills in the northeast of the area may see little in the way of low cloud.

Visibility: Mostly good, occasionally becoming hazy in rain.
